orcid: 0000-0002-5603-7334

APPOINTMENTS

- starting 09/2023 **SNF Ambizione fellow**, *Institute of Geophysics, ETH Zürich, Zürich, Switzerland*
Topic: Using Magnetic Fields to Explore Terrestrial Planets in our Solar System
- since 02/2022 **Reginald A. Daly Postdoctoral Fellow**, *Harvard University, Cambridge, USA*
Topic: Planetary magnetic fields
- 09/2020-01/2022 **ETH Postdoctoral Fellow**, *ETH Zurich, Zurich, Switzerland*
Topic: Planetary magnetic fields, SEG Group
- 2019 - 2020 **Postdoctoral Fellow**, *The University of British Columbia, Vancouver, Canada*
Topic: Mars magnetic field, with Prof. Catherine L. Johnson

EDUCATION

- 2013 - 2019 **PhD**, *The University of British Columbia, Vancouver, Canada*
Upgrade from MSc to PhD in May 2015
Thesis: Mars' external and internal fields from orbital observations, with Prof. Catherine L. Johnson
- 2010 - 2013 **BSc**, *Technical University of Munich and Ludwig-Maximilians-Universität, Munich, Germany*
Thesis: Marsquakes - Single station planetary seismology, with Prof. Heiner Igel

PROFESSIONAL EXPERIENCE

- 05/2018 - 01/2019 **Science Outreach Consultant**, *Department of Education, The University of British Columbia, Vancouver, Canada*
Developing teaching material for future high school teachers.
Integrating museum resources and exhibitions of the Pacific Museum of the Earth into easily accessible material for teachers and interested museum visitors.
- 2013 - 2019 **Teaching Assistant**, *Department of Earth, Ocean and Atmospheric Sciences, The University of British Columbia, Vancouver, Canada*
Courses: The Solid Earth: A Dynamic Planet (EOSC110), Laboratory Exploration of Planet Earth (EOSC111), Computational Methods in Earth, Ocean and Atmospheric Sciences (EOSC211), Earth and Life Through Time (EOSC326), The Earth and the Solar System (EOSC310)
- 2012 - 2013 **Assistant for Instrument System Integration**
Kayser-Threde, Dr. Clemens Kaiser, Ralf Paschetag and Jürgen Breitkopf, Munich, Germany

- March/April 2012 Overview of company projects (TET, Sentinel5, Galileo) by starting with an apprenticeship followed by a job offer.
- Since May Working in two different areas for the weather satellite "Meteor Third Generation" (MTG): "Mechanical Ground Support Equipment" (MGSE); "Assembly, Integration and Testing" (AIT)
Tools: IBM DOORS, Microsoft Office and CATIA.

MANAGEMENT AND LEADERSHIP

- since 01/2020 **InSight working group lead**
Interior Exploration using Seismic Investigations, Geodesy and Heat Transport mission: Co-lead of the Magnetism Working Group, member of the Science Team and the Leadership Team.
- 11/2020 **NASA Decadal Survey**
Led a group of scientists involved in research regarding Mars' magnetic field to identify major science and exploration goals for the next 10 years. This was published as part of the NASA Decadal Survey and presented in front of a NASA steering committee. [Link](#)
- 2015-2016 **CanMars: Raman Team Lead**
Co-lead of the Mastcam and Raman Spectrometer Team during a mission analogue experiment organized by the Canadian Space Agency resulting in two publications and several conference presentations at the lunar and planetary science conference.

TEACHING

- 2015 EOOSC212: Topics in Earth and Planetary Sciences (1 Lecture)
- 2013 - 2019 Teaching Assistant at UBC Vancouver
Assisting professors in teaching and grading of a variety of courses
Assisting in computer lab courses resulting in the Departmental Teaching Assistant Award

VOLUNTEER ACTIVITIES

- 2021/2022 **NASA Planetary Data System Reviewer**
Reviewing planetary mission data products to be published on the Planetary Data System (PDS).
- 2021/2022 **NASA NSPIRES Reviewer and Panel member**, Evaluation of proposals submitted to the Solar System Workings Program.
- since 2018 **Journal Reviewer**, Reviewer for journals such as Nature Astronomy, Journal of Geophysical Research, Geophysical Research Letters, Planetary and Space Science.
- 2014 **Mars Workshop**, *The University of British Columbia, Vancouver, Canada*
Organization of the new Pacific Museum of the Earth Mars workshop that was presented at the Geological Society of America meeting. The workshop is an introduction to planetary science for children with a focus on Mars.
- 2013 - 2016 **Graduate Council**, *The University of British Columbia, Vancouver, Canada*
Grad Council Coordinator 2014-2016; organized academic and social events to engage graduate students; represented graduate students in department committees. Positions held: Council Coordinator, Social Coordinator, Public Relations / Internal Relations Representative, Officer of Sustainability.

CONFERENCE ORGANISATION

Session Chair at Scientific Conferences

03/2022	LPSC, Texas: Martian Geophysics and Tectonics
12/2021	AGU Fall Meeting, New Orleans (hybrid): Diving Deep: Investigations of Planetary Interiors through Observation, Modeling and Experiments
12/2021	AGU Fall Meeting, virtual: Planetary Magnetism
12/2020	AGU Fall Meeting, virtual: Planetary Magnetism
03/2020	LPSC, Texas: One Year on Mars with InSight
04/2019	EGU, Vienna: First InSight Results
12/2019	AGU Fall Meeting, San Francisco: Planetary Magnetism

AWARDS AND SCHOLARSHIPS

2022 SNF Ambizione Fellowship (starting date September 2023)

Postdoctoral Awards: Received competitively-awarded postdoctoral fellowships

2020 Harvard Daly Fellowship

2020 ETH Fellowship

2020 Marie-Curie Fellowship (declined)

Doctoral Awards – The University of British Columbia

2015 - 2019 Four Year Fellowship (\$18,200/year)

2015 MacKay Memorial Scholarship (\$9,990.00)

2014 - 2018 CREATE CPSX Natural Sciences and Engineering Research Council of Canada (NSERC)

2014 W H Matthews Scholarship (\$2,500.00)

2014 J.Jay McNee Memorial Scholarship (\$1,600.00)

2013 - 2019 International tuition award

Other Awards

2019 Outstanding Student Paper Award (EGU Vienna)

2015 Outstanding Student Paper Award (AGU Fall Meeting)

2015 Departmental Teaching Assistant Award (\$500)

2014 - 2015 DAAD: Jahresstipendien für Graduierte und Promovierte (€950/Monat)

MEDIA COVERAGE

11/2021 EOS Editor Highlights "A Better Look at the Moon's Middle Mantle" [Link](#)

Selected media coverage related to InSight

11/2022 Science News "Marsquakes hint that the planet might be volcanically active after all" [Link](#)

09/2020 SciTechDaily "Surprise on Mars – Unexpected Reaction to Solar Eclipses From Martian Moon Phobos" [Link](#)

07/2020 Virtual Cosmic Nights of the MacMillan Space Center (2020): "Mars InSight Mission" Link to interview: [Link](#)

02/2020 Eurek Alert: "Magnetic Field at Martian Surface Ten Times Stronger than Expected" [Link](#)

Selected media coverage of Mittelholz et al., (2020)

06/2020 Eos Magazine "A Longer-Lived Magnetic Field for Mars" [Link](#)

05/2020 Science Daily "New timeline for ancient magnetic field on Mars" [Link](#)

05/2020 Universe Today "When Did Mars Lose its Global Magnetic Field?" [Link](#)

 - **A. Mittelholz**, C.L. Johnson, B. Langlais (2014). Large-scale geometry and temporal variability of the Martian external magnetic field (poster), AGU Fall Meeting, San Francisco, USA.

SELECTED ADDITIONAL PRESENTATIONS

- Seminar (2022), *UC Berkeley, USA*: "Mars' Magnetic Field as Seen from the Surface with InSight"
- Department Seminar (2021), *ETH Zurich, Switzerland*: "Mars' Magnetic Field as Seen from the Surface"
- Department Seminar (2021), *The University of British Columbia, Vancouver, Canada*: "Dragons on Mars"
- NASA Decadal Survey (2020): "Mars' Ancient Dynamo and Crustal Remanent Magnetism"
- Visiting Speaker (2020), *DLR, Berlin, Germany*: "Planetary Magnetic Fields: A focus on Mars"
- Virtual Cosmic Nights of the MacMillan Space Center (2020): "Mars InSight Mission"
- Visiting Speaker (2019), *Simon Fraser University, Vancouver, Canada*: "Mars Crustal Magnetism: Progress and Puzzles"
- Pint of Science (2019), *Vancouver, Canada*: "InSight - Getting to the Heart of Mars"
- Visiting Speaker (2019), *ETH Zurich, Switzerland*: "Mars Crustal Magnetism: Lessons Learned from Orbit and on the Ground"
- Mars 2020 Landing Site Workshop (2018), *Pasadena, USA*: "The Mars 2020 Candidate Landing Sites: A Magnetic Field Perspective"
- Visiting Speaker (2017), *Berlin, Germany*: "Global-scale external magnetic fields at Mars"
- NSERC CREATE CPSX annual meeting (2017), *Utah, USA*: "Understanding Mars"
- NSERC CREATE CPSX annual meeting (2016), *Canada, Kingston*: "The large-scale geometry and temporal variability of the external magnetic field of Mars"
- 3 Minute thesis competition (2015), *The University of British Columbia, Vancouver, Canada*: "The Magnetic Field of Mars"
- EarthTalks (2015), *The University of British Columbia, Vancouver, Canada*: "The Martian Magnetic Field"

WORKSHOPS

- Low-cost science mission concepts for Mars Exploration (2022): Advocating for regional magnetic field studies using helicopters.
- Participation in the CanMars analogue mission (2015/2016) as part of the Science team operating from London (ON). Two papers are results of this: Osinski et al., 2019 and Caudill et al., 2019
- Participation in field work and workshops offered during NSERC CREATE meetings 2016/2017
